# CORPORATE MISSION

**DIRECTOR**  
**MR. RAVI SALVE**

We aim to create value for our customers and aspire to be a preferred supplier in their vendors list by :

- Providing high quality products at the right price .
- Being responsive to their needs and requirement .
- Promoting integrity and ethical practices .
- Doing our bit for the environment .

HRS Engineering Power Solutions Pvt .Ltd. is ISO 9001 : 2015 certified a professionally managed firm , founded in 2014 , and engaged in manufacturing an array of sheet metal components for all types customized control panels , switch boards , acoustic enclosures and distribution panels . These are available in custom finishes as required by our clients . Complete assembly of Components based on customer requirement is also provided

The strength of the company lies in its Excellent manufacturing capabilities . Located on the Sr.No.118,Mohan Nagar, Panjarpol, Jay Ganesh Samrajya Chowk, Bhosari, Pune- 411 039 the company's Infrastructure comprises of a state-of-the-art production facility .

The unit is equipped with a modernized and completely computerized designing facility with a Laser Cutting ,CNC Turret Punch ,CNC press break , also has a sophisticated fabrication unit and finishing Department that is fitted with the latest equipment for quality work, designing and fabrication work ,a sophisticated Manual control 7 Tank pre-treatment plant and Batch type powder coating plant in the company.

We established our business in 2014. This time, we worked on supplying packing material and fabricating electrical panels and engineering products. We believe in quality and prompt delivery, which is why the company has established a production facility with over 40,000 square feet and an experienced personnel. We give our all to every endeavour. The equipment and machines are of cutting-edge quality, our greatest asset is delivering high-quality products on time as per client requirements. We have a team of experts who specialize in Power Electronics goods such UPS systems, solar inverters, PDUs, and servo stabilizers. We have extended and established M/s. HRS Power Solutions & Services Pvt. Ltd. as a sister entity to HRS Engineering & Power Solutions Pvt. Ltd. .

# CUTTING FACILITY

- **Make :- PROARC**
- **3 kw fiber laser cutting m/c**
- **Working range: 3000 x 1500 mm**
- **Laser Source – Raycus**
- **Rack and pinion drive in combination with ball screw**
- **Pilot laser**
- **Nitro / Oxy / Air Line**

- **Make :- PROARC**
- **1.5 kw fiber laser cutting m/c**
- **Working range: 3000 x 1500 mm**
- **Laser Source – Raycus**
- **Rack and pinion drive in combination with ball screw**
- **Pilot laser**
- **Nitro / Oxy / Air Line**

- **Make :- MURATEC**
- **Model : Machine m/c**
- **Type : Turret Punching Machine**
- **Force : 20 TON**
- **Maximum Sheet Thk : 4 MM**
- **Number Of Stations : 31**

# BENDING FACILITY

- **Make :- Wila Mac**
- **CNC Bending Machine**
- **Number of axes 2-axis**
- **Bending length 3 Mtr**
- **Bending force 160 kN**
- **Overall width 3200 mm**

- **Make :- Hindusthan**
- **CNC Bending Machine**
- **Number of axes 2-axis**
- **Bending length 2.5 Mtr**
- **Bending force 80 kN**
- **Overall width 2700 mm**
